Cold & Sinus Nasal Spray Forte and Cough & Throat Spray

Medical devices for nasal congestion, sore throat & dry cough
**Cough and Cold products**

(Recurrent) colds: sniffing and coughing
A cold is caused by a virus that leads to the inflammation of the mucous membrane of the nose. Some people will suffer from this a few times a year but others suffer recurrently from colds.

**Lucovitaal Cold & Sinus Nasal Spray Forte**
Especially for frequent use, we have developed a nasal spray with natural and nature-identical ingredients. The spray will make the inflammation of the nasal mucous membrane subside and is gentle on your nose.

**Claims**
- For the treatment of (chronic) rhinitis
- Reduces swelling and inflammation of nasal cavity and mucosa
- Alleviates symptoms of common cold, like nasal congestion, crusting, sneezing and runny nose
- May be used for longer periods
- For adults and children from 5 years

**Mechanism of action**
Lucovitaal Cold & Sinus Nasal Spray Forte is a formula with a dual action. It contains a salt solution (2,2%), which reduces the swelling of the nasal mucosa, thins the mucus and relieves the congestion, allowing you to breathe freely again. The active ingredients provide a protective layer on the nasal mucous membrane, which serves as a barrier against viruses and bacteria. Lucovitaal Cold & Sinus Nasal Spray Forte contains only natural and nature-identical ingredients and is preserved with a natural, ecological preservative.

**Lucovitaal Cough & Throat Spray**
Lucovitaal Cough & Throat spray is intended for the treatment of sore throat and (dry) cough. It works antitussive, soothes sore throat and hoarseness and reduces pain on swallowing.

**Claims**
- For the treatment of sore throat and dry cough
- Antitussive sore and soothing
- Reduces hoarseness and pain on swallowing
- Quick relief
- For adults and children from 5 years
- Mild honey taste

**Mechanism of action**
The active ingredients of the spray, INDK-213® and honey, coat and strengthen the mucosa. The spray is antitussive, soothes sore throat and hoarseness and reduces swallowing pain. The spray creates a thin protective layer in the throat, which protects and soothes throat mucosa and reduces irritation.

**Lucovitaal Cough & Cold Night Syrup**
Nothing is as much as irritating as coughing during night time while you are trying to fall asleep. Coughing keeps you awake and a good night rest is very important if you have a cold.

Lucovitaal has an absolute first in the cold shelves: a new treatment for dry, tickly cough and sore throat especially for the night. The dual action helps to suppress the cough, tends and soothes irritated throat.

Icelandic Moss covers the mucous membranes in the mouth and throat making it protected from further irritation. With an unique combination of liquorice and menthol, the syrup provides an instant cooling liquid sensation and a fresh feeling in the throat.

For a real free feeling on the chest and a relief if you have a cold. Beneficial for your throat and the perfect solution for a good night rest! Without artificial ingredients and sugar free.

**Claims**
- For the treatment of dry cough, tickly cough and sore throat during the night
- Dual action helps suppress the cough tends and soothes irritated throat to let you sleep
- For a good night rest during cold
- Sugarfree syrup

**Mechanism of action**
Icelandic Moss covers the mucous membranes in the mouth and throat making it protected from further irritation.
